# PRINT INVENTORY LABELS

## ETID ETID - Print

Prepare to print [Inventory Labels](#) on an InterMec printer.

Prepare to print [Inventory Labels](#) on an inkjet/laser printer.

Prepare to print [DD 1348-1A, Certifications, and Shipping Manifest](#).

To print the DD 1348-1A, Certifications, and Shipping Manifest, you must first have the Acrobat PDF Reader installed either on your machine or in your browser (see the download link below).

Once you have the reader installed, your browser may automatically bring up the document when you click on the link above. If not, then you must 1) click on the link above and save the file to your hard drive, and 2) open Acrobat Reader and then select file and open to open the file you saved.

Once you have Acrobat Reader open you then select Print from the File menu to print the document.

Tip: If portions of the printed documents fail to contain spaces between the words, then you most likely have a printer driver problem. Call the help desk (1-269-961-4999) and explain that PDF files are not printing correctly (spaces are missing). They will help you install a Postscript version of your printer driver. Note that this problem usually occurs with Hewlett Packard PCL drivers.

Download Adobe Acrobat [PDF Reader](#).

Back

## OPTIONS:

1. **PRINT INVENTORY LABELS ON AN INTERMEC PRINTER.**
2. **PRINT INVENTORY LABELS ON A LASER PRINTER**
3. **PRINT DD 1348-1A/CERTS/SHIPPING MANIFEST**

# PRINT INVENTORY LABELS - INTERMEC

## Print Inventory Labels

Please set the number of labels to print for each DTID:

Number of Labels to Print for DTID 13421433149901:

Please select your InterMec Printer COM Port:

COM Port:

Get Labels

Back to Print Page

### INSTRUCTIONS

First select your InterMec Printer COM Port and press the "Get Labels" button. Once you select a port, a label script file called "printlbl.bat" will be generated. You must then run this script on your computer to print the labels.

#### To run the script from Internet Explorer:

1. Click on the printlbl.bat link.
2. Select "Run this program from its current location".
3. Click OK.
4. Labels will print.

#### To run the script using Netscape:

1. Click on the printlbl.bat link. An InterMec Printer Script will appear in your browser.
2. Select File and Save from the Netscape menu bar to save the script to your hard drive.
3. Run the script by double clicking the file in Windows Explorer.

Note that if the script does not work, you may have chosen the wrong COM port. Check with your system administrator to confirm the COM port.

1. **SELECT THE NUMBER OF LABELS YOU NEED**
2. **SELECT THE COM PORT THE INTERMEC PRINTER IS CONNECTED**
3. **CLICK ON GET LABELS**

# PRINT INVENTORY LABELS - INTERMEC

## Print Inventory Labels

To print labels with an Intermec printer connected to COM1, run the script [printlbl.bat](#)

Change Label Setup

Back to Print Page

### INSTRUCTIONS

First select your InterMec Printer COM Port and press the "Get Labels" button. Once you select a port, a label script file called "printlbl.bat" is generated. You must run this script on your computer to print the labels.

#### To run the script from Internet Explorer:

1. Click on the printlbl.bat link.
2. Select "Run this program from its current location".
3. Click OK.
4. Labels will print.

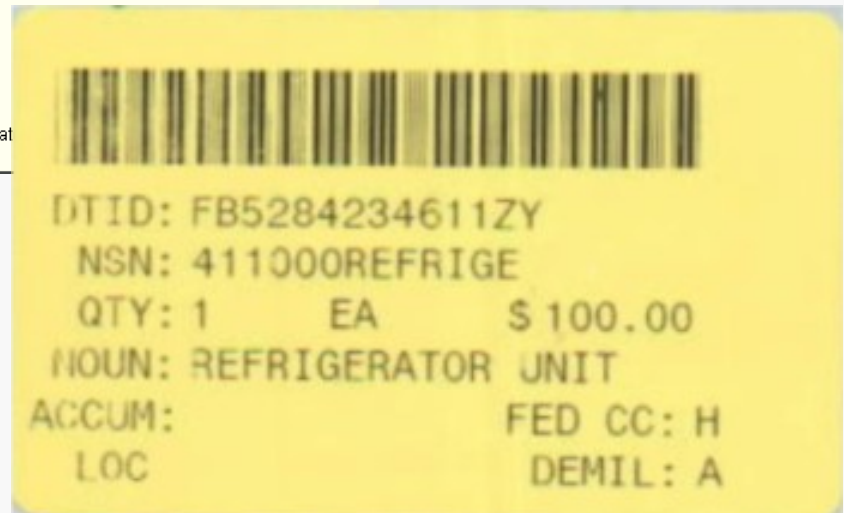

#### To run the script using Netscape:

1. Click on the printlbl.bat link. An InterMec Printer Script will appear in your browser.
2. Select File and Save from the Netscape menu bar to save the script to your hard drive.
3. Run the script by double clicking the file in Windows Explorer.

Note that if the script does not work, you may have chosen the wrong COM port. Check with your system administrator.

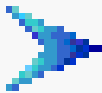

## 1. RUN THE SCRIPT FOR THE INTERMEC PRINTER

2. **PRINT INVENTORY LABELS ON A LASER PRINTER**
3. PRINT DD 1348-1A/CERTS/SHIPPING MANIFEST

# PRINT INVENTORY LABELS - LASER

## Print Inventory Labels

Please set the number of labels to print for each DTID:

Number of Labels to Print for DTID 13421433149901:

1

Please select the initial position for the first label:

1

6

2

7

3

8

4

9

5

10

Select the position of the first label by clicking on the chart on the left. The labels are positioned order starting with the position you select. For a new sheet click on position "1".

Selecting the "Get Labels" will provide a PDF file with the labels starting at the "1" position.

Note: Label printing works with label sheet template 5163, which contains 10 labels on an 8 1/2" x 11" sheet consisting of 2 columns with 5 rows each.

**Important Note:** Some labels are not suited for being run through the printer more than one time and label documentation before running labels through a second time in order to avoid color fading.

Get Labels

Back to Print Page

1. ENTER NUMBER OF LABELS DESIRED
2. SELECT POSITION TO START
3. GET LABELS
